

K-2E is 5000 IN 1 universal A/C remote control. This model build-in Clock, Timer On/Off, Quickly Search, Brands Search functions. And it can directly control 4 brands A/C (MITSUBISHI, GREE, MIDEA, Panasonic National) without any setup when insert batteries.

Setting Method

Turn on you're A/C, let the remote control aim the A/C receive window.

1. Turn on your A/C manually, and find out your brand code from the code list. One brand may have many codes, you can choose the first set code. (if no work, then choose next set, till you find the correct code.)
2. Press "SELECT" button and "ENTER" button together, the remote control will come into setting mode, code display "----" and flash on the screen.

- Press "CODE+/-" / "TIME+" for setting thousands digit
- Press "CODE+/-" / "TIME+" for setting tens digit
- Press "TIMER ON" for setting tens digit
- Press "TIMER OFF" for setting units digit

3. If the code can work well, press "ENTER" for saving code. Remark: If there is no any operation at the remote control within 15s, it will exit setting mode and not save the code.

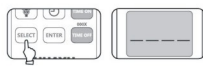

1. Let the remote control aim the A/C receive window, press "SELECT" for 3s, then the remote control will come into setting mode, and the remote control will send one code by each click on "SELECT" button, when the A/C has reaction, press "ENTER" for confirmation and saving code.

2. Let the remote control aim the A/C receive window again for testing other buttons function, if the code is invalid, make the setting again according to above method. Remark: If there is no any operation at the remote control within 15s, it will exit setting mode and not save the code.

Method C: Quickly auto search code

1. press and hold "SELECT" button, don't release the button, the remote control will come into auto search mode, code will display "----" and flash on screen, when the A/C has reaction, release "SELECT" button at once, setting to be finished.

2. Let the remote control aim the A/C receive window again for testing other buttons function, if the code is invalid, make the setting again according to above method.

(Remark: this remote control build-in intelligent speed function. If after setting, you feel the remote control operation not so fast for A/C, you can press "ENTER" button and don't release, when the A/C has reaction, release the button, then test the remote control again.)

Method D: Brand search

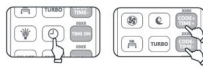

press the corresponding key of brand and don't release, when the A/C has reaction, release the button at once. Test the functions are ok or not, if it is invalid, please reset again. Remark: the screen will display the code "----" and flash when you make setting, release the button, it will display current code.

The brand list for corresponding key

1)MODE:	PANASONIC
2)SWING:	SANYO
3)VANE:	MITSUBISHI
4)FAN:	TOSHIBA
5)HEAT:	SHARP
6)CODE+/TIME+:	SAMSUNG
7)CODE-/TIME-:	LG
8)TIMER ON:	DAIKIN
9)TIMER OFF:	HITACHI
10)LIGHT:	ELECTROLUX
11)CLOCK:	FUJITSU
